

THE ARC OF PA SYSTEMATIC INSTRUCTION

WHEN

November 1st- November 3rd

WHERE

Best Western Central - 800 East Park Drive Harrisburg, PA 17111

ABOUT

Attendees will learn how to analyze complex work tasks and develop a specific teaching plan to guide job coaching and teaching work skills to participants. The methodology is an evolved form of Marc Gold's Try Another Way. This specialized strategy is recommended for job coach supervisors, job coaches, school personnel and others who are teaching work skills. Attendees will have the opportunity to practice this specialized methodology with a learning partner on day three of the training.

Participants seeking certification are expected to commit approximately 40 hours of fieldwork with/on-behalf of a learning partner under the guidance of Marc Gold and Associates over the course of 4 months. This is the pre-requisite face-to-face training to complete certification through MG&A.
