REQUEST FOR PROPOSAL  
EVALUATION OF THE ARC OF PENNSYLVANIA'S  
INCLUDE ME PROGRAM

The Arc of Pennsylvania is seeking a qualified researcher or research organization to conduct an evaluation of our Include Me Program (IM). The mission of IM is to develop, support and enhance disability inclusive practices across Pennsylvania. We partner with school districts to create a comprehensive plan that meets the unique needs of the district, teachers and families.

The Arc of Pennsylvania is seeking proposals from qualified individuals or organizations to conduct an external evaluation of the data collection tools and processes currently used in the IM initiative.

**Approach**

Include Me program specialists are positioned in various regions of Pennsylvania. Each program provides the following:

- Student Team Consultation-specialists visit classrooms and offer resources, strategies, onsite mentoring and other supports as identified by the student's IEP team.
- School-wide general support-provide general consulting to increase accessibility for school-or school district wide events activities and more.
- Staff training: deliver professional-developmental opportunities for school personnel on a wide range of topics.
- Family training-deliver subject matter trainings, webinars, and informational sessions focused on aiding families how to navigate special education and transition planning.
- Virtual Student Programs-we facilitate a variety of virtual student-facing programs in the afternoon and evening through engaging, age-appropriate activities for students.
- On-site technical assistance-assist in the implementation of a variety of assistive technology solutions for students, including device training and lending.
- Inclusive District Projects-collaborate with school districts to create school building projects such as sensory rooms, playground communications boards and more.
- Develop and present professional development training for school districts. Topics include disability awareness & acceptance, inclusive classroom practices, assistive technology, positive behavior supports, customized employment and Includi-Con virtual conference.

**Evaluation of Objectives - IM Data Collection Tools and Practices**

This evaluation will focus on three primary objectives:

**1. Assess the Effectiveness of Current Data Collection Tools**

Review and analyze the instruments and methodologies currently used to collect data on teacher mentoring, student outcomes, inclusive practices, and school-wide impact within the IM program.

**2. Identify Gaps in Data Collection**

Determine where critical information may be missing or underrepresented in the current evaluation framework. This includes assessing whether the tools capture meaningful data from all stakeholder groups (e.g., students, parents, teachers, administrators) and across key areas of implementation.

**3. Compare IM Evaluation Practices to Least Restrictive Environment (LRE) Requirements**

Examine how well the IM data collection and evaluation practices align with federal and state mandates related to the Least Restrictive Environment. The goal is to assess whether the current tools effectively measure IM's impact in supporting inclusive placements and practices in accordance with LRE standards.

**Scope of Work**

The selected researcher and/or research organization will be responsible for:

1. Review current data collection methods used by the Include Me program specialists
2. Collect relevant data from Include Me staff through various research methods including interviews, surveys and observations.
3. Analyze the collected data using appropriate quantitative and qualitative techniques.
4. Provide a detailed report outlining strengths and limitations of current tools and data systems, identify gaps or areas for improvement and recommendations for enhancing the evaluation framework to ensure it is comprehensive, socially valid and LRE aligned.
5. Create a list of data collection tools, practices and surveys to be considered as a result of evaluative results on the effectiveness of current data collection tools and identified gaps.
6. **The research project can commence on March 30, 2026, and must be completed by June 30, 2026.**
7. **Depending on the renewal of funding, there may be an opportunity for the successful bidder to implement tools and strategies for up to five additional years.**

**Proposal Submission**

1. Organizational profile or researchers' background and qualifications.
2. Proposed evaluation approach including research design, data collection methods, and analysis techniques.
3. Proposed budget, including fees and anticipated expenses.

4. Relevant experience and track record of conducting similar educational research or evaluations
5. References from previous clients or projects.

Applicant shall promptly correct any errors, omissions or defects in any services at no cost to The Arc of PA. If Applicant fails to correct the services within a reasonable time, The Arc of PA, in addition to any other rights or remedies available at law or in equity or pursuant to the contract documents, may correct them and offset the cost of correction against any remaining balance owed to Applicant and Applicant shall reimburse The Arc of PA for any difference that may remain. The Arc of PA also reserves the right to terminate the contract immediately, with written notice to the vendor, for convenience, if The Arc of PA believes, in its sole discretion, that it is in the best interest of The Arc of PA to do so. If the contract is terminated in accordance with this Paragraph, the District shall only be required to pay Applicant for services satisfactorily performed prior to the termination. If the District has paid the Applicant for services not yet provided as of the date of

termination, the Applicant shall immediately refund such payment(s). Any award under this procurement process is not exclusive and The Arc of PA reserves the right to purchase goods and services from other vendors when it is in The Arc of PA's best interest.
